**To see auction items**

**Or make a donation**

Tiffany has been fighting an unknown medical problem for a year and half now. The problem appears to be a true "medical mystery"! After monthly hospitalizations to weekly, to almost constant hospitalization, tests too numerous to count and a multitude of Doctors, she continues to get worse. Between Doctor bills, medicine costs and loss of income, Dave and Tiffany need HELP!

The future is uncertain, if Doctor's don't find a cure in Kansas City, the Mayo Clinic is being considered and their Insurance will not cover 1 CENT of the cost!

**PLEASE donate something to auction, donate money,  
purchase an auction item and HELP!**
